

Robert and the rest of the Sinners,

I apologize for not being able to thank ya'll personally after our event. The Sinners were the catalyst that made our annual dinner dance "one to remember."

I have been booking bands for our annual seminar for years. This includes Portland, San Francisco, Chicago, D.C., New Orleans to name a few. Let me tell you, this long distance exercise can bring on considerable angst. I am so thankful this weight was quickly lifted from my shoulders after meeting the band. I immediately knew I was in the hands of not only professionals that loved what they were doing but true southern gentlemen. The passion for the music and the obvious fun the Sinners had in playing it was contagious. We had a Great time.

Thank You Again

Les
